

THE GAS GUARDIAN™

THE OXY-ACETYLENE SYSTEM SPECIFICALLY DESIGNED WITH SAFETY IN MIND!

FEATURES

- Based on design developed by the U.S. Air Force
- 3-ply firewall separates fuel from oxidizer to comply with OSHA 1926.350 (a)(10) regulations for cylinder separation
- Model SPGAS5001 equipped with firewall, self-retracting reel, regulator housing and manifold, torch cradle and welders
- Model SPGAS5002 equipped with firewall, self-retracting reel, regulator housing and manifold, and torch cradle
- Sturdy single-point lifting lug standard
- Regulators housed in vented cabinet to protect against flame and falling objects
- Handy work surface keeps tools, parts, and manuals ready and organized

**LICENSED FROM THE
USA UNDER U.S.
PATENT #252297**

NSN # 4490-01-560-4255

COMPLIES WITH
OSHA 1926.350 ON
STORAGE OF COMPRESSED GAS

**SPIKA WELDING & MFG
254 COTTONWOOD CREEK ROAD
PO Box 1123
LEWISTOWN, MT 59457**

THE GAS GUARDIAN™

THE OXY-ACETYLENE SYSTEM SPECIFICALLY DESIGNED WITH SAFETY IN MIND!

Based on a model originally designed by the 30th Operations Support Squadron of Vandenberg AFB in California, the safety-conscious **Gas Guardian™** gas welding/cutting cart specifically addresses several potential safety issues common with the old industry standard two-wheeled cart:

- High-pressure gas cylinders are protected from inadvertent contact which reduces the possibility of the cylinders becoming missiles if struck
- Fuel and Oxidizer cylinders are separated by a three-ply fire barrier which exceeds the OSHA 1926.350 requirements for cylinder storage while not in operation
- Regulators located in protected and separately vented cabinets to prevent accidental damage or exposure to flame
- Gas and oxygen hoses stored on self-retracting reel, allowing operator to uncoil

only the required amount of hose for the job

- Self-recoiling reel stores excess hose safely out of the way
- Heavy gauge steel body protects valves and hoses
- Positive cylinder cradle and securing clamps keep cylinders in place
- Handy torch cradle keeps torch ready to use
- Industrial strength casters provide easy movement with locking brakes on the front for superior stability
- Cradle accommodates both 9" and 12-1/2" diameter fuel tanks
- All steel construction; Made in the USA

DIMENSIONS

Gas Guardian Dimensions:				
Description	Height	Length	Width	Weight of Cart
Gas Guardian	69-1/2"	51-3/8"	34"	462 lbs
